> Master of Education Degrees

Sports Administration

- MEd (online)

The Master of Education, Secondary Education option, Sports Administration specialization is designed to prepare the professional educator for positions as head coach, athletic director, or other administrative positions responsible for directing athletic programs.

Instructional Design & Technology - MEd (online)

This degree program is to prepare secondary school educators for employment in the schools of the state and nation in the specialization of Instructional Design and Technology.

Secondary Education Academic Discipline - MEd

This graduate program is designed to provide 18 hours of secondary content specialization to meet the demand for highly qualified teachers for secondary public schools and to provide content-area, graduate-level courses for those who desire to teach at the community college level.

Library Media - MEd (online)

The Master of Education in Library Media is designed to prepare library media specialists for employment in the schools of the state and nation.

School Psychometry - MEd

This degree focuses on the applied knowledge needed in the development and use of educational and testing skills for student assessment. The curriculum is designed to address the educational and psychological concerns associated with educational assessment of students with routine and special needs in the classroom.

School Counseling - MEd

The graduate program option for the school counselor is designed for the graduate student specializing in counseling at the elementary or secondary level and leads to the Master of Education degree.

School Leadership - MEd (online)

This degree program is to prepare secondary school educators for employment in the schools of the state and nation in the specialization of Educational Technology.

Special Education - MEd (online)

An online Master of Education in Special Education from East Central University explores the unique learning abilities and psychological requirements of children with disabilities. Our curriculum covers teaching methods and various technologies, as well as ethical and legal considerations, necessary to work in special education.

> Master of Psychology Degrees

Option A: School Psychology - MS

Focuses on the skills and knowledge needed for providing psychological services within public school settings. The curriculum is designed to prepare students to work with diverse childhood populations, including children from diverse demographic backgrounds as well as children with diverse learning, behavioral and emotional needs. Students who successfully complete this track will be eligible to seek state School Psychologist and School Psychometrist certification.

Option B: Counseling Psychology - MS

Focuses on the skills and knowledge needed to facilitate personal and interpersonal functioning within mental health practice and different community mental health settings. The curriculum is broad-based to prepare students working with many different populations. Students in this track will be eligible to seek state LPC and LBP licensure.

Option C: Sports Psychology - MS

Focuses on the applied knowledge needed in the development and use of psychological skills for the optimal performance and well-being of athletes. The curriculum is designed to address the performance and psychological concerns associated with sports involvement affecting athletes, coaches and families, as well as the developmental and social aspects of sports participation.
