

Master of Science in Water Resource Policy and Management (MSWRPM): 1030 2026-2027

The Master of Science in Water Resource Policy and Management (www.ecok.edu/mswrpm) is delivered in a mixed format. This 30-hour program has an estimated residential tuition and fees cost of \$11,750 (www.ecok.edu/bursar).

Water Resource Policy and Management supports the need for advanced understanding of the growing complexity of water issues that face communities in the state, nation, and globally. This program trains students for leadership in making water policy decisions and prepares students who seek employment within federal and state environmental agencies, environmental non- governmental organizations, international development agencies, industry, and environmental consulting firms.

Water Resource Policy and Management requires students to integrate and synthesize knowledge from multiple disciplines to address the complex challenges of water resource decisions and to develop solutions that are socially acceptable, politically and economically viable, and environmentally sustainable. Students will be broadly trained to undertake careers in managing water resources and in guiding or making water resource policy decisions.
