2026-2027

Certificate in Project Management
(21 Credit Hours)

The Certificate in Project Management provides students with the knowledge and skills necessary to plan, execute, and manage projects effectively across a variety of industries. Coursework includes foundations in financial and managerial accounting, principles of management, and specialized training in project management processes and techniques. Elective hours allow students to further develop expertise in accounting, business, or information technology management. This certificate complements multiple majors and prepares students for careers in project coordination, operations, and management. *(Curriculum updated: AY 2025-26)*

Required Regular Courses

☐ACCT 2103 Financial Accounting
